## Objective

I am a second year college student at Purdue University who is looking to enhance my skills in computer science, engineering, and programming, by applying the skills learned in my current major, Robotics Engineering Technology.

## Education

### Purdue University

2018-2022

I began classes at Purdue University in August 2018, with a Robotics Engineering Technology major. Additionally, I am intending to transfer into the Computer Science Program for Spring 2019.

#### Relevant Classes Taken

- CS 18000 - Problem Solving and Object Oriented Programming
- CS 19300 - Tools
- MA 16100 - Calculus I
- MA 16200 - Calculus II
- CS 18200 - Foundations of Computer Science
- CS 24000 - Programming in C

#### Relevant Classes Projected for Spring 2020 Semester

- MA 26100 - Multivariate Calculus
- STAT 35000 - Introduction to Statistics
- CS 25000 - Computer Architecture
- CS 25100 - Data Structures and Algorithms

### Purdue University Extracurriculars

- Purdue Music Producers P/R Director (Spring 2019-Present)

## Skills

- Coding Languages/Frameworks: Amazon AWS, Babel, Bootstrap, C++, CSS3, Firebase, Github, HTML5, Java, JavaScript, NodeJS, Python, React, Swift
- Visual Art program proficiency
  - Photoshop - Photo Editing, Animation
  - Audition - Audio Manipulation
  - After Effects - Post Production Visual Effects
  - Premiere Pro - Video Editing

## Work Experience

- McAfee Theatre Student Technician (December 2017 - Present)
- Hall of Music Student Technician (October 2018 - Present)
- Software Intern at 6DBytes (Summer 2018)
- Computer Science Curriculum Summer Developer (June 2019 - August 2019)
- Computer Science Curriculum Academic Term Developer (August 2019 - Present)
- CS18000 Teaching Assistant (June 2019 - Present)
